

Why TeleCompCare?

The **Results** Speak for Themselves!

In 2017, AF Group introduced TeleCompCare (TCC) – a nurse triage/telemedicine program that offers an innovative solution for injured workers to get immediate, appropriate care when a workplace injury occurs.

The Process is Simple.

- The injured worker calls the TCC 800-number (without having to leave work)
- A nurse does a telephonic assessment of the injury and recommends the appropriate level of care
- First notice of loss is created which starts the claim process

The Results

Since the program's inception, we've seen a dramatic reduction in indemnity frequency for customers with a high TCC utilization rate. The charts and statistics to the right show a policyholder's reduction in indemnity claims after just one year in the program – as well as the reduction in overall claim costs and indemnity paid per claim.

And as you know, lower claim costs equate to lower experience modification factors, and ultimately, reduced workers' compensation premiums. But you don't have to take our word for it...the results speak for themselves!
